Employee Agreement: Employees shall be required to sign a Code of Ethics form as an indication that they understand and will abide by these standards. An employee who refuses to sign the form may be subject to disciplinary action, up to and including termination from employment. The superintendent is responsible for developing the form; provided, the form shall encompass the elements of this policy.

Code of Ethics Violations: Questions or concerns about possible violations of the Code of Ethics should be reported through the normal complaint procedure as outlined in BP-2028 – Board Hearings (Staff Complaints) except that the complaint will begin at Level II, with the Superintendent as the initial contact for alleged violations by staff or a Board of Education member.

All individuals are encouraged to report suspected violations of the code of ethics. District employees who do not abide by the Metro Technology Centers Code of Ethics may be subject to disciplinary action up to and including termination. Board members who do not abide by the Technology Center Code of Ethics may be reported to the State Board of Career and Technology Education or other appropriate authorities.

Board members and employees should report any concerns about Metro Technology Centers business practices that appear to be unethical, or which may violate board policies or administrative procedures or processes, or any applicable laws. Employees should report ethical concerns or violations to their supervisor or to the superintendent. Concerns involving the superintendent should be reported to the president of the board of education or, if the individual making the report believes that the complaint may involve the president of the board, the individual may report to any other member of the board of education. The nature of the complaint shall determine the manner in which the complaint shall be investigated and resolved. However, generally the district shall use the procedures included in district approved complaint procedures, with adaptations in the procedures appropriate to the nature and severity of the ethical complaint.

No adverse action shall be taken or threatened against any employee as a reprisal for making a complaint or disclosing information, unless the complaint was made or the information was disclosed with the knowledge that it was false or with willful disregard or deliberate indifference for its truth or falsity.
