1.0 POLICY:

The Board embraces energy conservation and believes it to be the Board's responsibility to ensure that every reasonable effort is made to conserve energy and natural resources while exercising sound financial management and recognizes the importance of adopting an energy management and conservation policy to govern this program. Energy conservation is the joint responsibility of the Board, administration, faculty, staff and students. The Board expects all employees to make a positive contribution to maximize energy conservation and produce real energy savings. Accurate records of energy consumption and cost will be maintained for each campus to provide verifiable performance information to the Board.

The Superintendent is directed to develop procedures consistent with this policy.
